

**Native Plant Species:
Environmental
Champions!**

Native plantings:

Don't need fertilizers!
Don't need pesticides!
Need less watering!
Provide food for wildlife!

**And...protect stream
environments!**

**How many plants
do I need?**

Draw a plan of the
space to be planted.
Large plants, shrubs
and trees are great
planted as single
specimens; smaller
plants look great in
groups of three, five
and nine.
