

Residential Energy Efficiency Programs

PSE&G-Sustainable Jersey Partnership

Energy Efficiency *Programs.*

Appliance Rebates

Rebates and instant discounts on eligible high-efficiency ENERGY STAR® certified appliances purchased at retail stores.

Appliance Recycling

Free pickup, haul-away, and environmentally responsible disposal of old, working refrigerators and freezers, plus a rebate for each qualifying unit.

HVAC Instant Rebates

Rebates on high-efficiency HVAC equipment purchased through a participating contractor; interest-free, on-bill repayment, and other incentives available.

PSE&G Marketplace

Online storefront offering instant rebates at checkout on energy-efficient products including smart thermostats, water fixtures, and more.

Efficient Products Programs

Demand Response

Two pathways available: FlexPower—for residential and small business customers with smart thermostats, and SmartFlex—a behavioral program for residential customers. Enroll to reduce energy use during peak times and earn rewards.

Residential

Home Assessment Programs
(Whole Home Energy Solutions)

Home Weatherization*

Free energy efficiency assessment and additional energy efficiency, health, and safety upgrades at no charge.

Whole Home Energy Assessments

Free one-hour walk-through of a customer's home, including installation of energy-saving products at no cost.

Whole Home Energy Solutions

Customers can contract with a Trade Ally for a comprehensive home assessment to help maximize energy efficiency and overall comfort; on-bill repayment is available.

Comfort Partners*
(Utility/BPU-managed program)

No charge for energy audit, direct installation of energy-efficient equipment, health and safety upgrades, and deeper retrofits including weatherization and system replacements.

Behavioral MyEnergy

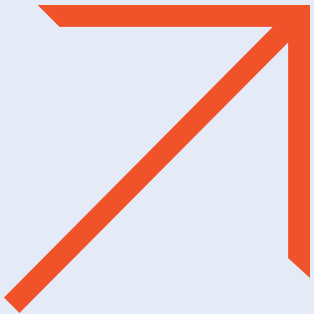

Data analytics, home energy reports, and online energy audits.

* Home Weatherization and Comfort Partners are similar but have different household income guidelines for eligibility to participate. Home Weatherization participants must be above 250% and below 400% of the Federal Poverty Guidelines; Comfort Partners participants must be at or below 250% of the Federal Poverty Guidelines.

Efficient Products Programs

Appliance Rebates

At a *glance*.

Customers can receive **instant discounts** that can be applied at checkout at participating retail stores, or they can apply online for **post-purchase rebates** on high-efficiency appliances.

- **Instant Discounts (retail store markdown):** ENERGY STAR® certified appliances including room air conditioners, air purifiers, dehumidifiers, and bath ventilation fans are eligible for an instant discount at PSE&G's retail partners.
- **Post-Purchase Rebates:** PSE&G customers may submit an online rebate application for purchasing ENERGY STAR certified qualifying appliances. These include washers, dryers, dishwashers, heat pump water heaters, refrigerators, freezers, and smart thermostats. Proof of purchase required.

Program *details.*

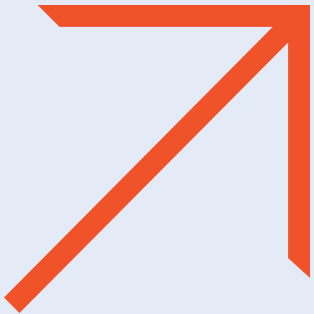

Eligibility

- Must be a current PSE&G residential electric and/or gas customer to participate.
- Customers must purchase equipment at a participating retailer to claim instant rebates.
- Instant discounts are available to all customers who shop in-store at participating retailers. Discounts on eligible products are already reflected in the price at checkout.

How Customers Can Participate

Submit a post-purchase rebate form online at
ApplianceRebate.pseg.com.

Appliance Recycling

At a *glance.*

PSE&G will pick up, haul away, and recycle **up to two refrigerators or freezers per household** for free. Refrigerators or freezers must be 10 to 30 cubic feet and in working order. Sub-Zero brand appliances are not eligible.

Also, if PSE&G customers have old, working room air conditioners or dehumidifiers, PSE&G will recycle up to two room air conditioners and up to two dehumidifiers per household during the same appointment.

Program *details.*

Eligibility

Participation is limited to current PSE&G residential electric customers and to Butler Electric customers receiving PSE&G natural gas service.

Rebate Amounts

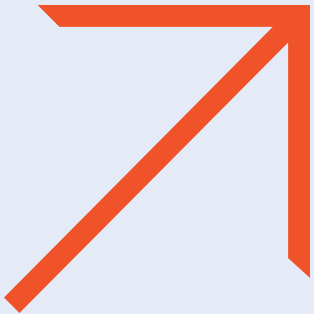

- Refrigerator: \$100 rebate
- Freezer: \$100 rebate
- Dehumidifier: \$35 rebate*
- Room air conditioner: \$35 rebate*

How Customers Can Participate

Schedule a free pickup online at pseg.com/Recycling or call **1-844-356-4608**.

* Must be picked up at the same time as refrigerator or freezer.

HVAC Instant Rebates

At a *glance.*

PSE&G residential customers can get **instant rebates** on eligible equipment purchased and installed through a participating PSE&G program contractor(s). Energy-efficient upgrades, including a central or mini-split air conditioner unit, heat pump, water heater, furnace, boiler system, or ENERGY STAR® certified smart thermostat, may be eligible for rebates.

Program *details.*

Eligibility

Resident must be a current PSE&G residential electric and/or gas customer to participate.

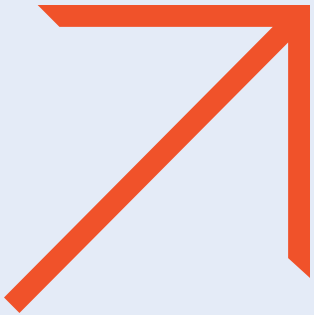

Measures

Rebates are available for air conditioner units, heat pumps, water heaters, furnaces, boiler systems, or ENERGY STAR certified smart thermostats.

How Customers Can Participate

See available incentives and find a participating contractor at pseg.com/HVACRebates.

PSE&G Marketplace

Marketplace *details.*

Eligibility

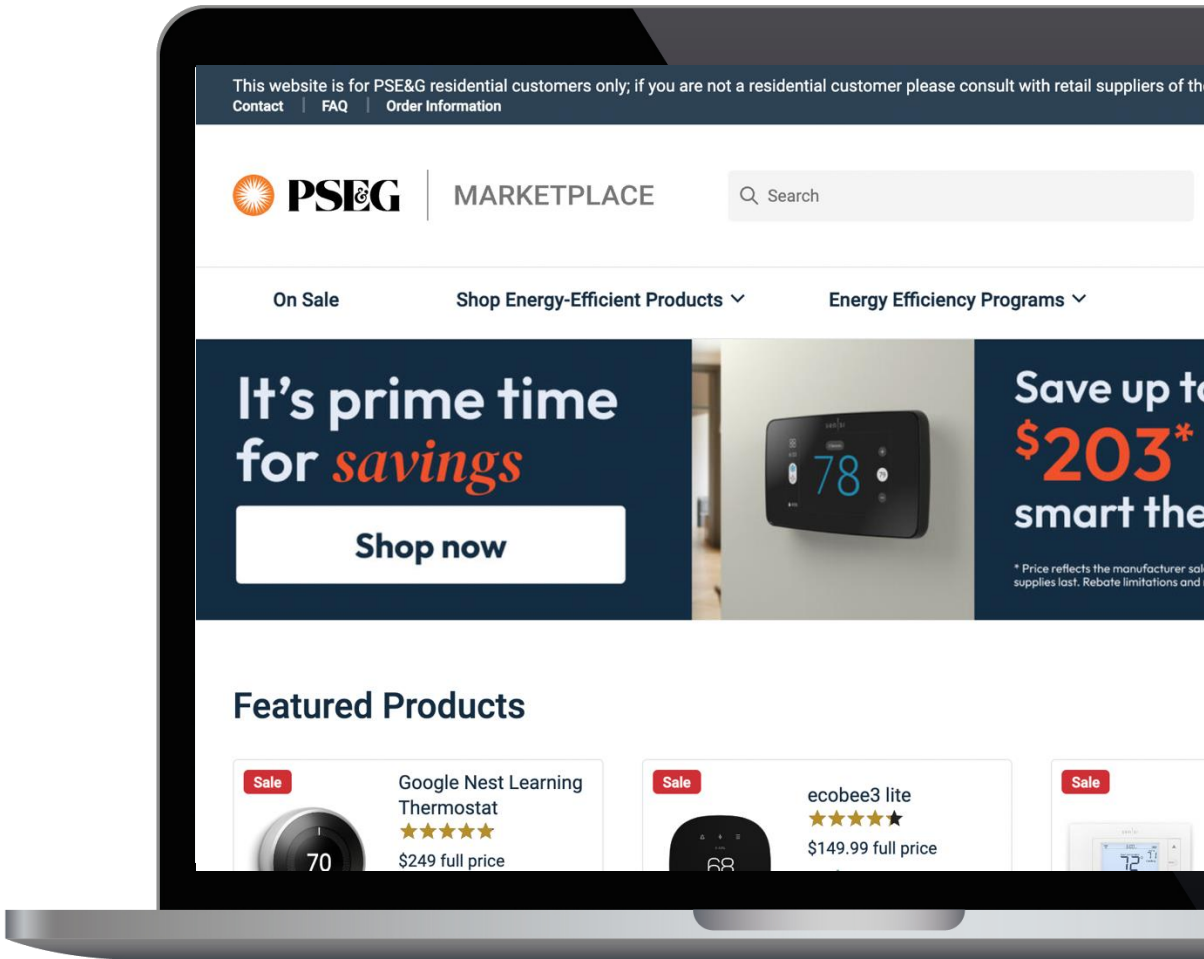

- To shop the Marketplace, visitors must be current PSE&G residential electric and/or gas customers. Customer can also have a Butler Electric and PSE&G gas account to receive electric rebates.
- Customers will be required to validate their PSE&G residential account prior to checkout to receive rebates. Eligibility can be verified using a service address, a PSE&G account number, or a *MyAccount* SSO.

Qualified Products

Qualified products include advanced power strips, air purifiers, smart thermostats, water fixtures, and more. Brands include Nest, ecobee, and Honeywell.

How Customers Can Participate

Shop now at pseg.com/Marketplace.

Marketplace *details.*

Customer is responsible for installation of the products within 60 days of purchase in the home associated with the account.

Limit of two:

Per year

- Low-flow aerators
- Low-flow showerheads

Every three years

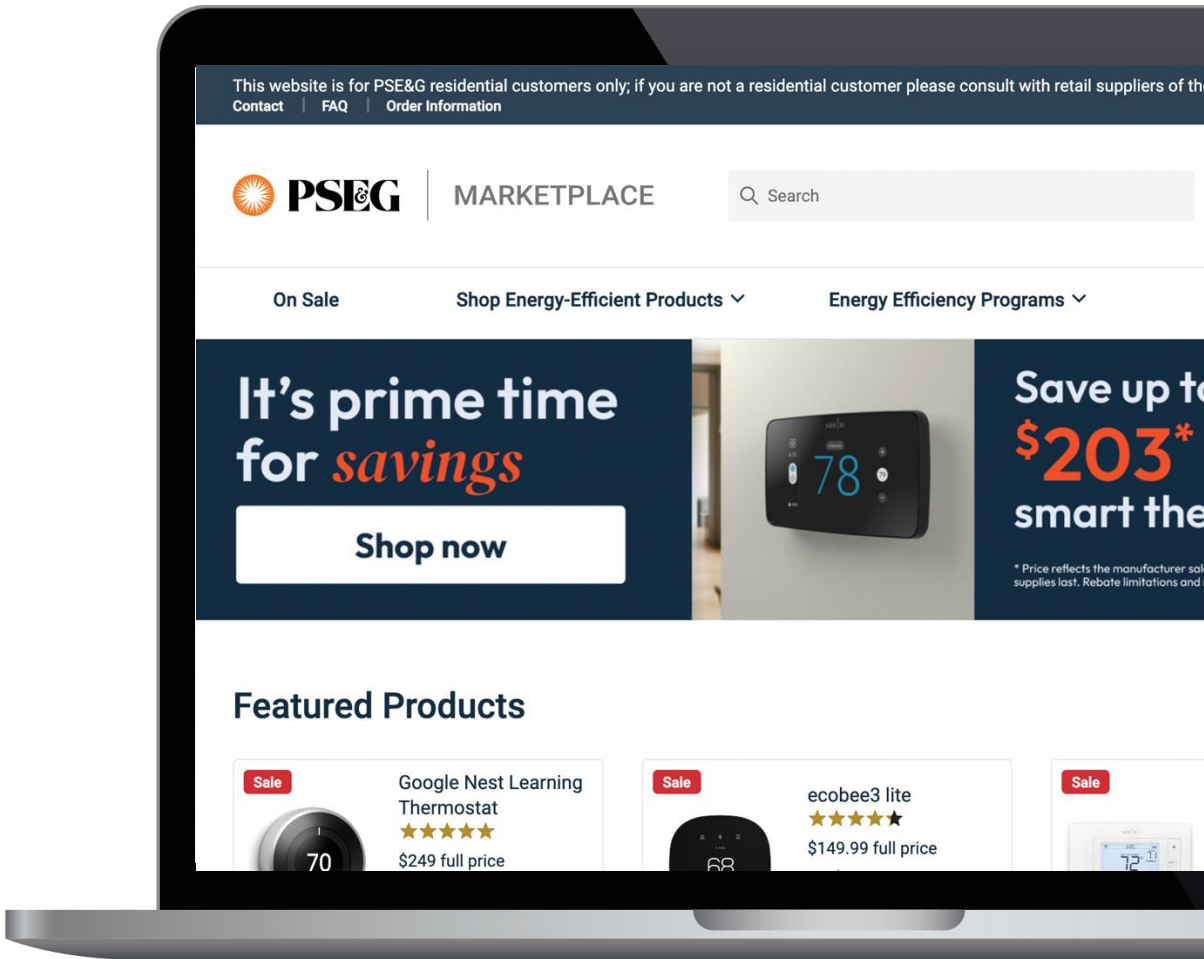

- Smart thermostats
- Air purifiers
- Dehumidifiers

Limit of four:

Every three years

- Advanced power strips (tiers 1 and 2)
- Window air conditioners

Home Assessment Programs

Benefits of home assessments.

- Participants receive a room-to-room walk-through, as well as recommendations about how to improve the energy efficiency, health, and safety of their home.
- Customers can receive expert advice from a PSE&G certified energy adviser that could help them save up to 30% on energy costs.*
- Income-eligible customers may qualify for energy efficiency upgrades at no cost depending on their homes' needs.
- Customers could receive energy-efficient products, such as a smart thermostat, LED light bulbs, and advanced power strips, also at no cost.
- Up to \$25,000 in interest-free, on-bill repayment is available for eligible customers to make upgrades that are performed under Whole Home Energy Solutions more affordable.

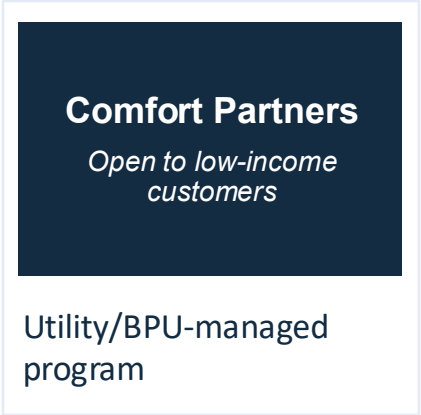

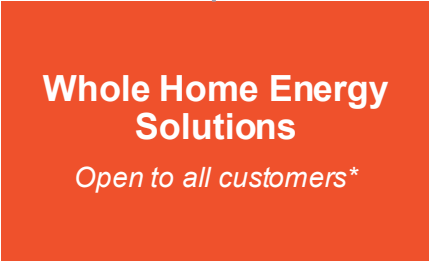

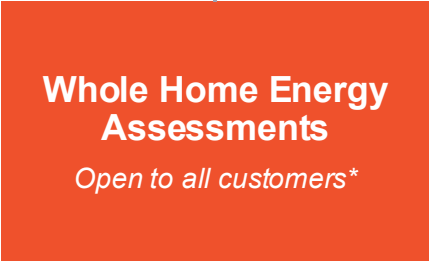

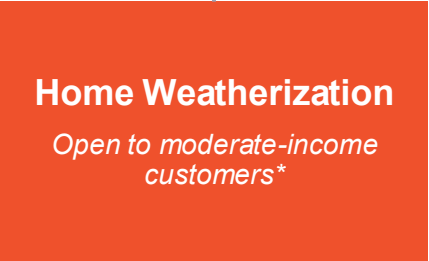

Program *overview.*

Home energy assessment offerings

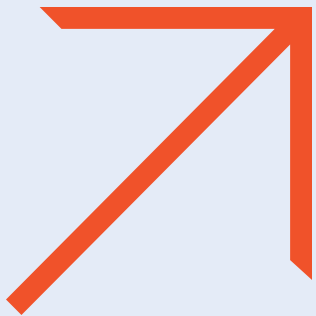

Umbrella
Program

Pathways

* Customer eligibility remains dependent on dwelling qualifications.

Home Weatherization (pathway)

Pathway *details.*

Eligibility

Resident must be a current PSE&G electric and/or gas customer and live in a one- to eight-unit dwelling to participate. Eligible customers must also meet **one** of the following requirements:

- Household income is above 250% and below 400% of the Federal Poverty Levels.
- Primary residence is located within a moderate-income census tract.
- Primary residence is located within a specific Overburdened Community.
- Resident participates in the federal safety net partnership program New Jersey SHARES.

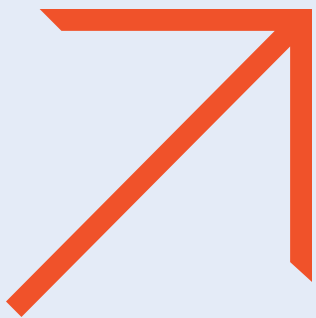

Measures

- The customer may receive a variety of energy-efficient and safety products, including faucet aerators, showerheads, LED light bulbs, advanced power strips, smart thermostats, and carbon monoxide detectors.
- Based on the assessment findings, customers may also qualify for additional energy efficiency and/or health and safety improvements such as air sealing measures, insulation upgrades, ductwork sealing, dryer venting, heating and cooling equipment upgrades, and water heater replacements.

How Customers Can Participate

Schedule an appointment at pseg.com/HomeWeatherization.

Whole Home Energy Assessment (pathway)

At a *glance.*

Customers can schedule an appointment to have a certified energy adviser perform a **free Whole Home Energy Assessment** to identify the ways customers can save more energy and money.

Pathway *details.*

Eligibility

Participation is limited to current PSE&G electric and/or gas customers.

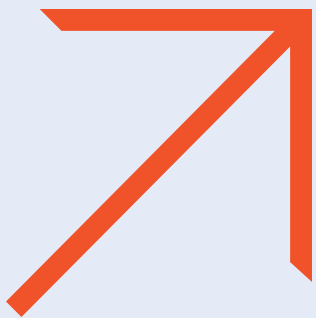

Measures

- During the appointment, the customer will receive energy efficiency recommendations related to air leakage, appliances, heating and cooling systems, insulation levels, light fixtures, and water heating equipment.
- The program may also provide and install energy-saving products such as advanced power strips, a smart thermostat, efficient-flow showerheads, and LED light bulbs at no cost.
- After the appointment, the customer will receive a customized report with recommendations about more steps they may take to reduce energy use.

How Customers Can Participate

Schedule an appointment at pseg.com/WHEA.

Whole Home Energy Solutions (pathway)

At a *glance.*

Customers can schedule a **home energy assessment** with a participating contractor to make their homes more energy efficient.

Following the assessment, the resident will receive a customized report with recommendations about steps they may take to reduce energy use, control costs, and take advantage of rebates **up to \$6,000** and **interest-free, on-bill repayment up to \$25,000.**

Pathway *details.*

Eligibility

Resident must be a current PSE&G electric and/or gas customer to participate.

Measures

- The participating contractor will visit the home to test air leakage, carbon monoxide levels, cold/hot spots, cooling system efficiency, heating system efficiency, hot water system efficiency, indoor air quality, and insulation levels.
- Measures include air conditioning system upgrade or replacement, air sealing, boiler upgrade or replacement, domestic hot water upgrade or replacement, furnace upgrade or replacement, and insulation.

How Customers Can Participate

Find a participating contractor at pseg.com/WHES.

Comfort Partners

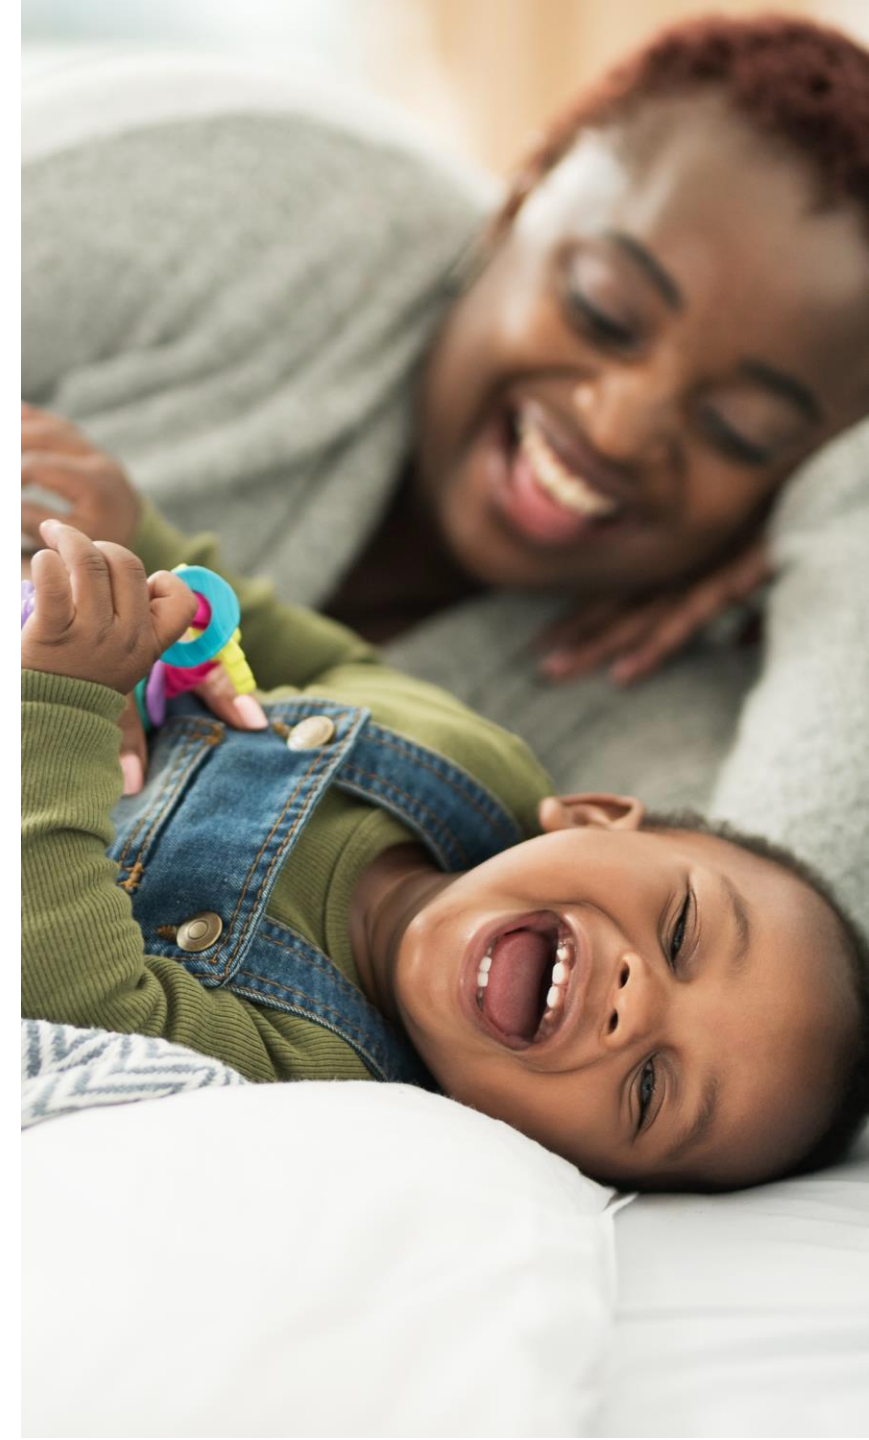

At a *glance.*

The **Comfort Partners Program** is a component of New Jersey's Clean Energy Program. It offers free energy-saving improvements and energy education to income-eligible families.

Comfort Partners is managed by seven New Jersey-based utilities, including PSE&G.

Program *details.*

Eligibility

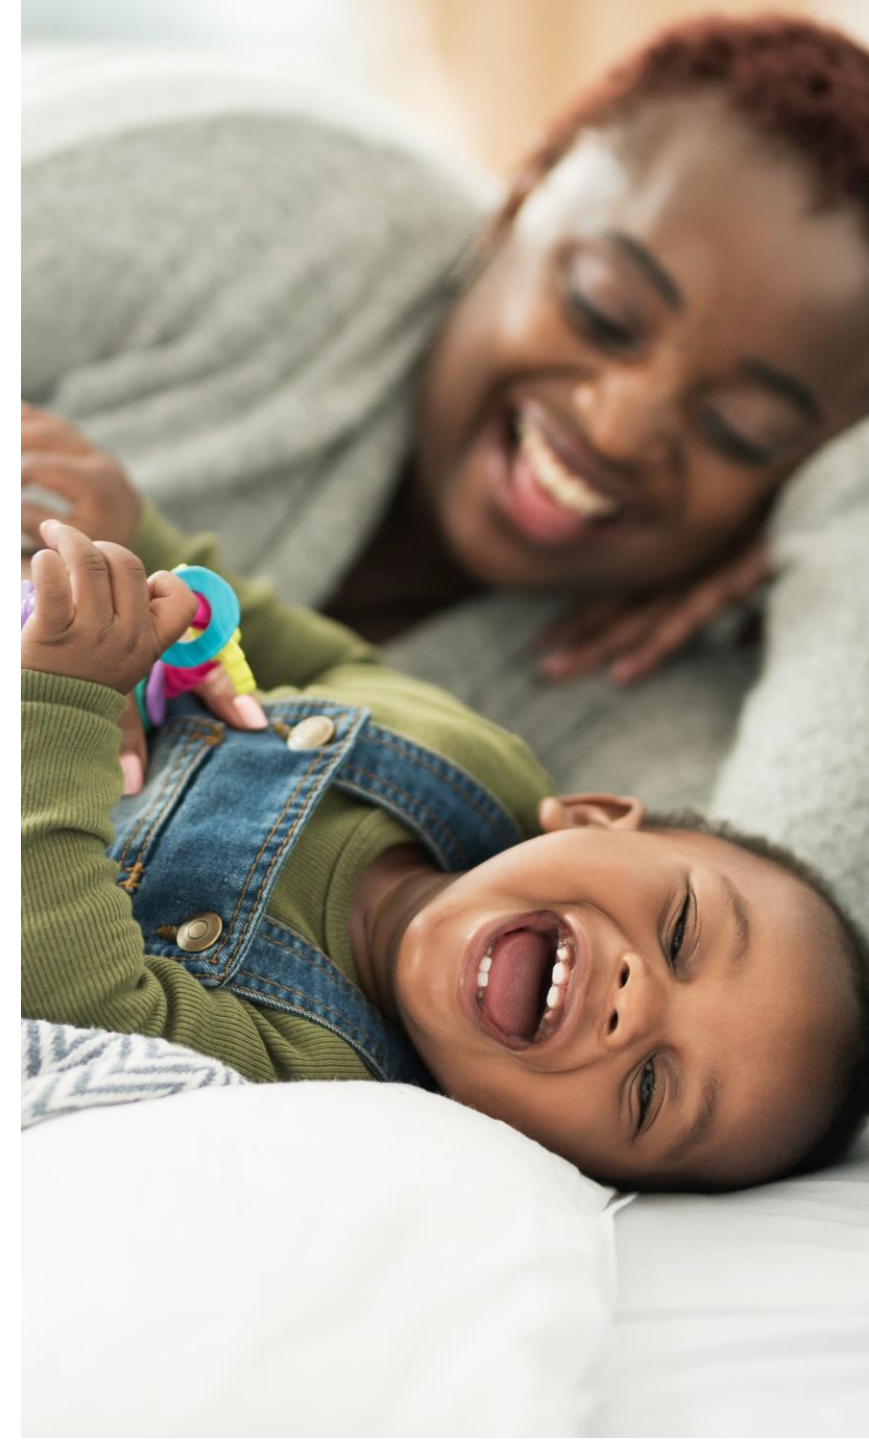

Participation is limited to current PSE&G residential electric and/or gas customers who have a household income at or below 250% of the Federal Poverty Levels.

Measures

In addition to a free assessment, customers may receive no-cost upgrades, including air sealing, ductwork sealing/repair, efficient lighting products, hot water conservation, insulation upgrades, refrigerator and/or freezer replacement, personalized energy counseling, tune-ups of heating/cooling equipment, and more.

How Customers Can Participate

Customers can learn more at pseg.com/ComfortPartners.

Behavioral MyEnergy

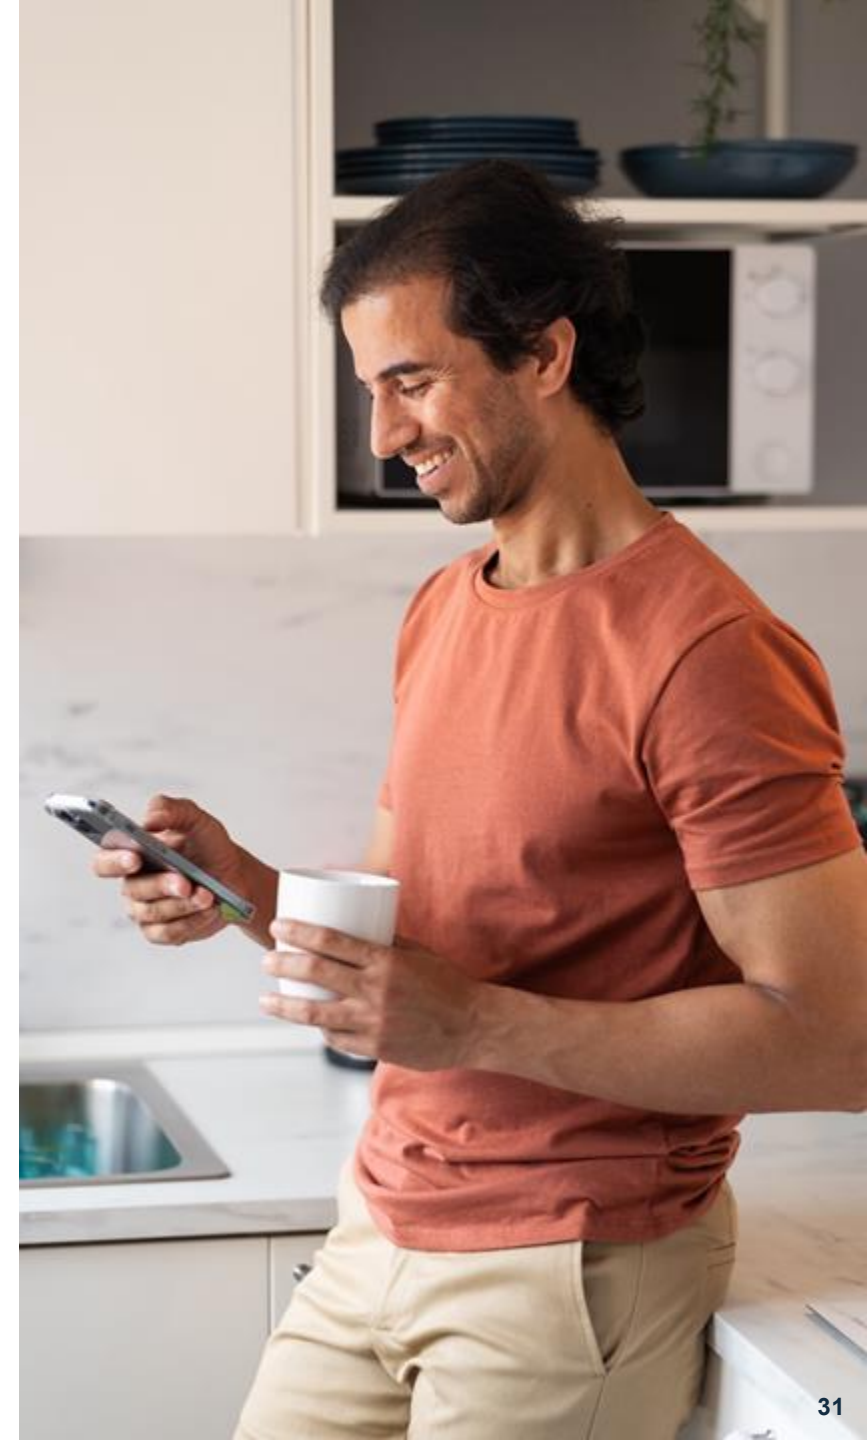

At a *glance*.

MyEnergy is an opt-out behavior-based energy efficiency program that is part of PSE&G's Clean Energy Future (CEF) Program.

MyEnergy was designed to help PSE&G's residential customers save money by providing them with personalized information regarding their electric and natural gas usage, comparative energy use information, tips to save energy, and opportunities to participate in other energy efficiency or company programs.

- Single-family, multifamily, and low- to moderate-income households can participate.
- Approximately 1.3 million customers (dual-fuel, electric-only, and gas-only) currently participate in MyEnergy.

Program *details.*

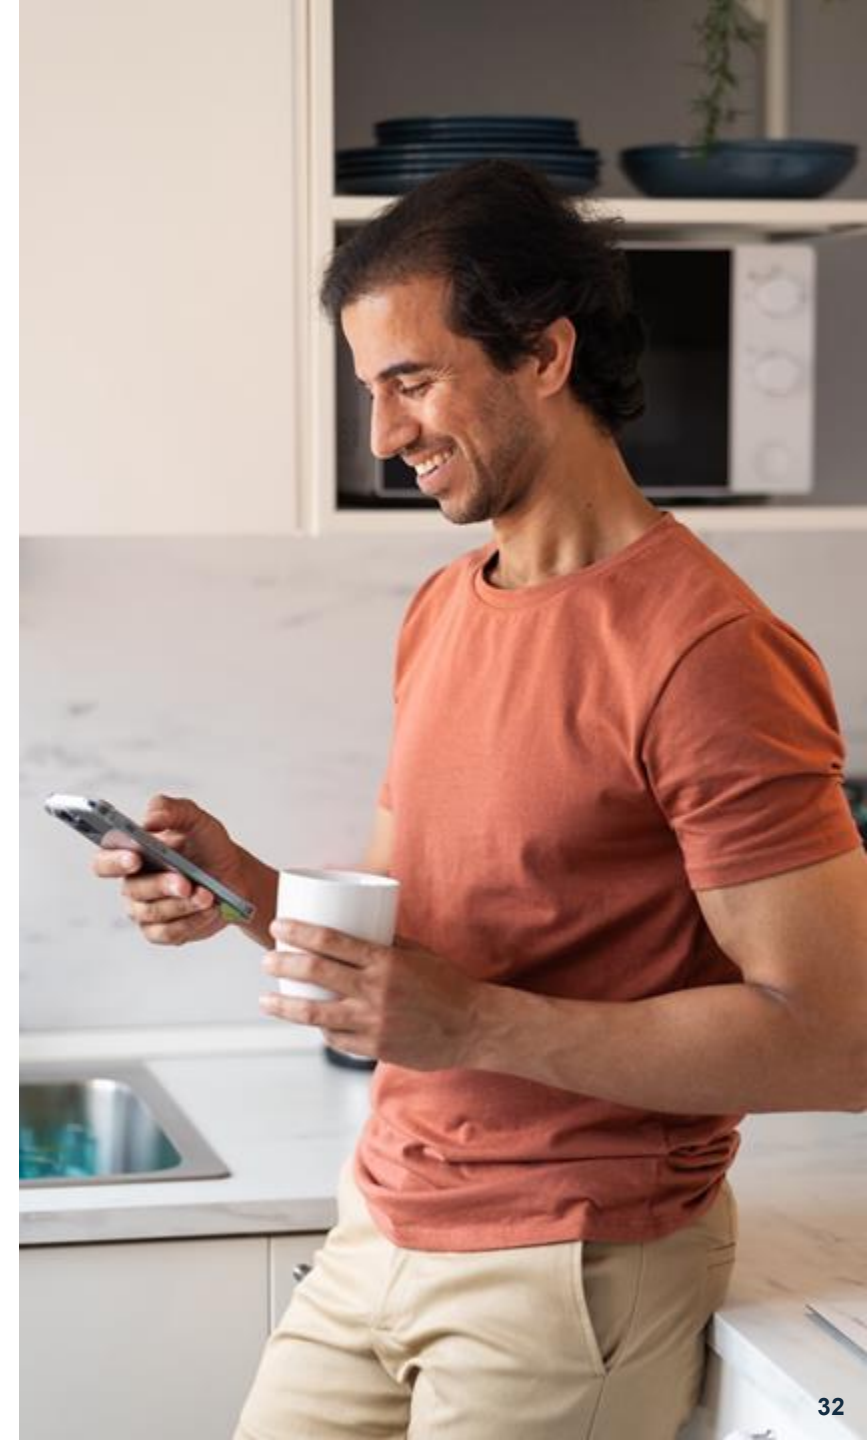

Eligibility

Participation is limited to current PSE&G residential electric and/or gas customers who:

- Have a PSE&G *My Account* with continuous 13 months of billing data.
- Have not installed solar prior to program participation.

Main Components

- **Home Energy Reports** – (paper and digital reports) sent to customers on a monthly cadence
- **High Usage Alerts** – emailed to customers mid-month if usage is trending high
- **Home Energy Assessment (HEA) Tool** – short survey, yielding personalized report
- **Online Customer Portal** – ask the expert questions, update home profile

Residential Electric Vehicle Programs

Residential Smart Charging

- Up to \$1,500 toward the cost to install an EV charger in your home
- Up to an additional \$5,000 toward the cost for PSE&G to upgrade the electrical service, if needed
- Off-Peak Charging Program- credit on your electric bill for charging at night or on the weekend

Business Energy Efficiency Programs

C&I Energy Efficiency *Programs*

Multifamily

Provides energy-efficiency education through energy assessments and a suite of efficiency and building decarbonization offerings ranging from simple to deep energy retrofits targeting all end uses

Direct Install (DI)

Offers free energy assessments, incentives, and on-bill repayment to **public entities, non-profits & small businesses**. Projects typically involve lighting and commercial HVAC. Includes **Closed Network for Public Entities & Open Network Small Business Direct Install (SBDI)**

Prescriptive

Features rebates and on-bill repayment for energy-efficient midstream and downstream measures including HVAC, lighting, motors/drives, refrigeration, water heaters, air compressors, food service equipment, and more. Also, includes a *Midstream* and *Downstream* channel

Engineered Solutions (Energy Solutions)

Provides energy efficiency measures and engineering services for hospitals, colleges and universities, school districts, municipalities, multi-family apartments, other nonprofit/public entities, and large commercial entities

Advanced Custom (Energy Solutions)

Offers rebates and on-bill repayment for custom measures that do not have prescriptive rebates

Energy Management (Energy Solutions)

Focuses on optimizing energy use for existing systems and business processes. Includes Retro-Commissioning (RCx) and Strategic Energy Management (SEM), Monitoring-Based Commissioning (MBCx), Virtual Commissioning (VCx) and Building Optimization pathways

Installation Pathway:

Direct Install (DI): Customer contracts with Trade Ally for installation

Prescriptive: Customer can either contract with Trade Ally for installation or purchase products and arrange for installation

Engineered Solutions: Customer selects contractor(s) of choice for construction work

Advanced Custom: Customer contracts with Trade Ally for installation, selects contractor(s) of choice for construction work, or uses in-house staff

Energy Management: Customer selects contractor(s) of choice for installation

On Bill Repayment (OBR) available for C&I Pathways for eligible customers

Resources for managing energy costs.

Energy-Saving Programs

Take advantage of our energy-saving programs at **pseg.com/HomeEnergy** or **1-855-846-2895**.

PSE&G offers a variety of energy efficiency programs that can help you save money with discounts, rebates, and expert energy assessments.

Bill Payment Assistance

Learn about bill payment assistance at **pseg.com/Help**.

If your energy bills become unmanageable, a number of payment assistance programs are available. PSE&G also offers payment arrangements.

Tips and Tools

Get energy-saving tips and tools at **pseg.com/SaveEnergy**.

Get convenient online information to help you manage your monthly energy usage. Find tips and tools, including our online home energy assessment, to help you reduce energy costs.

Equal Payment Plan

Enroll in the Equal Payment Plan at **pseg.com/EPP**.

Avoid seasonal fluctuations in your energy bill with the Equal Payment Plan (EPP). EPP estimates your yearly energy costs (based on last year's usage) and divides the total into 12 equal monthly payments.
